TABLE OF CONTENTS

Mechanics & Mechanical Engineering

01	**Mai Duy Phuong** Development of a method for determining the impact characteristics of a Masset hammer based on a combined simulation and experimental approach.	**3 – 10**
02	**Nguyen Truong Thanh, Nguyen Hanh Hoan, Hoang Khac Hoang, Nguyen Van Hung, Dang Van Huan** Research on the influence of M79-type propellant charge structure on bore pressure.	**11 – 18**
03	**Vu Tung Lam, Nguyen Thanh Diem, Le Van Hoang, Dinh Van Hung, Sai Manh Thang** Study on increasing density of sintered W-1.5Ni alloy by Al-Cu-Zn alloy infiltration.	**19 – 27**
04	**Nguyen Tuan Anh, Dinh Van Hien, Vu Tung Lam, Le Van Hoang** Determining the temperature-dependent thermal conductivity of phenolic resin/glass fiber composite materials using the inverse method.	**28 – 36**
05	**Duong Quoc Viet, Nguyen Hanh Hoan, Phan The Son, Hoang The Dung** Numerical investigation of internal ballistics in solid rocket motors using a multi-step simulation method.	**37 – 44**
06	**Tran Phuong Chien, Nguyen Van Dung, Nguyen Hoang Duc, Nguyen Trong Cuong** Properties of wear-resistant WC-10Co-4Cr coatings prepared by high velocity oxy-fuel thermal spraying.	**45 – 52**
07	**Bui Van Am, Dinh Van Hien, Tran Ngoc Thanh** Structural analysis and experimental strain measurement of T700/epoxy composite solid rocket motor casings.	**53 – 60**
08	**Pham Cong Dinh, Nguyen Trang Minh, Nguyen Thanh Tien, Bui Dinh Tan** Integrated dynamic modeling of a shipborne multiple rocket launcher considering actuation torques.	**61 – 69**
09	**Tran Van De, Nguyen The Duy, Nguyen Dinh Linh** Study on the influence of wave-shaper dimensions on the penetration performance of a 125-mm shaped charge warhead.	**70 – 79**
10	**Tran Xuan Dieu** Derivation of the nonholonomic equations of motion for an unmanned ground vehicle mounted with a launching device.	**80 – 89**
11	**Dao Van Vuong, Vu Hoa Binh, Do Trang Manh Cuong, Pham Van Tu** Investigation of hygrothermal environment effects on the static bending response of nanobeams.	**90 – 97**
12	**Nguyen Dinh Linh, Le Tuan Anh, Nguyen Hoa Binh, Le Hai Thuong, Nguyen The Duy, Tran Van De** Study and evaluation of the damage performance of a 120-mm multi-effect warhead using numerical simulation.	**98 – 107**

13 **Tang Xuan Long, Phan The Son** **108 – 116**
Design and optimization of a hydrodynamically activated removable protective nose cover for high-speed water-entry vehicles.
14 **Le Van Thao** **117 – 124**
Dynamic torque analysis of a coaxial-actuated 3-DOF spherical parallel mechanism under varying working orientation.

Avionics and Flight Control

15 **Nguyen Dinh Duy, Duong Dinh Quang** **125 – 132**
Evaluation of allowable dynamic unbalance of a gyroscope rotor based on drift requirements.
16 **Pham Duc Thong, D.V. Tarlakovsky** **133 – 141**
An enhanced terminal guidance law for short-range aerial vehicles with impact angle constraints and aerodynamic uncertainty.
17 **Nguyen Trong Yen, Nguyen Sy Long, Vu Doan Ket, Nguyen Quang Vinh** **142 – 151**
Hardware in the loop simulation of a three-channel flight control system for an aerial vehicle using an integrated INS/GPS navigation system.
18 **Nguyen Hong Son, Bui Vinh Binh, Do Duc Trung, Nguyen Van Vinh, Nguyen Tien Han, Nguyen Ngoc Anh** **152 – 162**
On a pragmatic combined CFD–analytical solution for deriving the complete 33-coefficient aerodynamic database of the UAV.
19 **Nguyen The Hong, Nguyen Van Khoi, Pham Trung Dung** **163 – 172**
Preliminary aerodynamic configuration optimization using particle swarm optimization with a multi-component objective function.
20 **Le Van Bao** **173 – 181**
A novel solution for an SDR-based anti-radiation seeker integrating CNN-based RF fingerprint recognition with DOA estimation.
21 **Nguyen Van Thu, Le Vu Nam, Nguyen Van Linh** **182 – 190**
A lightweight asymmetric compensation framework for continuous MWIR zoom control under direction-dependent load variations.
22 **Ta Minh Son, Nguyen Huu Thang, Quach Xuan Nam, Trinh Duc Cuong** **191 – 200**
Adaptive output feedback control of induction motors with unknown parameters.
23 **Pham Khac Lam, Nguyen Dinh Duy, Le Quang Sy, Duong Dinh Quang** **201 – 208**
Non-contact optical measurement of mechanical gyroscope drift using image processing for spin-stabilized missiles.
24 **Nguyen Trong Khuyen, Cao Duc Sang, Ho Si Duong, Vu Hai Ha, Nguyen Thi Le Quyen, Truong Tat Anh** **209 – 218**
Vector-field LOS-based sliding mode path-following control with surge velocity constraints for underactuated surface vehicles under disturbances.
25 **Pham Thanh Long, Nguyen Ngoc Ha** **219 – 228**
Simulation of spatial constant velocity transmission using equivalent RL approximation circuits.
