

TABLE OF CONTENTS

01	Tran Duy Duyen, Nguyen Duc Cuong, Mai Khanh, Nguyen Quoc Binh Ballooncopter – A new prospective type of UAV: A Review	03 – 10
<i>Electronics & Automation</i>		
02	Duong Phu Tuan, Nguyen Tuan Minh, Nguyen Quang Vinh Application of the SQP algorithm in leader–follower formation control.	11 – 19
03	Le Ba Yen, Vu Quoc Huy Synthesize control signal to electric drive systems of 2-wheel autonomous robots using PA-BLDC actuator.	20 – 27
04	Nguyen Viet Phuong, Nguyen Duy Khanh Synthesis of nonlinear robust control for aerial vehicles under parameter uncertainties.	28 – 35
05	Pham Van Nam, Nguyen Thu Ha, Pham Van Hung, Pham Van Minh, Tran Thi Hang Designing an ECG signal measurement and analysis system using SVM algorithm for arrhythmia classification.	36 – 43
06	Le Nhu Thai, Le Thi Hang, Nguyen Hoai Son Compact Ku-band monopulse microstrip stacked patch array antenna with hybrid power divider system.	44 – 51
07	Nguyen Trong Yen, Nguyen Sy Long, Vu Doan Ket An enhanced random noise suppression method for fiber optic gyroscopes to improve gyrocompass performance.	52 – 59
<i>Chemistry, Biology & Environment</i>		
08	Ninh Duc Ha, Dinh Van Long, Nguyen Thi Ha Dong, Doan Tuan Anh, Dao The Nam, Doan Minh Cuong, Vu Minh Thanh Investigation of the effects of heat treatment on the microstructure and mechanical properties of Pb-Sb alloy used in fabrication of anode spines for high-capacity lead-acid batteries.	60 – 66
09	Tran Van Hien, Do Thi Thuy Development of biodegradable lubricating grease for application in specialized equipment operating under marine environmental conditions.	67 – 74
10	Le Hong Minh, Vu Ngoc Toan, Nguyen Thi Thu Huong, To Phuong Linh, Le Thuy Trang, Le Xuan Dong, Dang Thi Ngoc Chau Evaluation of nitrate removal efficiency from aqueous solutions using modified biochar derived from coffee husk.	75 – 82
11	Ngo Minh Tien, Tran Van Chinh Research on the manufacturing of Fe ₂ O ₃ /TiO ₂ -based adsorbent granules for application in treating Pb ²⁺ -contaminated water.	83 – 89
12	Nguyen Ba Ngoc Effect of some factors on the electrolysis production of sodium perchlorate from sodium chlorate using PbO ₂ /Pb-Ti electrode.	90 – 97

Physics & Materials Science

- | | | |
|----|--|-----------|
| 13 | Le Vu Nam, Pham Dinh Quy, Nguyen Thu Cam
Design of cooled MWIR continuous zoom optical system for long-range surveillance. | 98 – 105 |
| 14 | Pham Thanh Quang, Ho Quang Quy, Tran Quoc Tuan
Optimization of adaptive nonlinear aspherical microlens using ZEMAX. | 106 – 112 |
| 15 | Nguyen Tuan Hieu, Tran Duc Long, Nguyen Dinh Quang
Influence of technological parameters on the hot-pressed process of CaF ₂ optical ceramics. | 113 – 120 |

Information Technology & Applied Mathematics

- | | | |
|----|--|-----------|
| 16 | Chu Thi Quyen, Ngo Thi Thanh Hoa, Nguyen Thi Cam Ngoan
An ensemble model with feature selection for nearshore wave forecasting. | 121 – 129 |
| 17 | Doan Quang Tu
Ontology-based query graph matching. | 130 – 138 |

Mechanics & Mechanical Engineering

- | | | |
|----|--|-----------|
| 18 | Hoang Anh Tu, Vu Thanh Tung, Pham Thanh Tuan
Research on methods for measuring and controlling the modulation index of a frequency-modulated interferometer for high-precision displacement measurement. | 139 – 146 |
| 19 | Dao Van Duong, Nguyen Kim Hung, Ngo Van Tuan, Vu Thi Khanh Van, Duong Xuan Bien
Research on optimization of surface roughness of aspherical aluminum during Single-Point Diamond Turning using BBK model and PSO algorithm. | 147 – 154 |
| 20 | Le Van Van, Vu Thanh Tung, Trinh Quang Hung, Phan Tien Thanh, Tran Van Chau
Study on a two-step polishing method using pulsed fiber laser for SKD11 tool steel components. | 155 – 162 |
| 21 | Bui Xuan Son, Phung Van Cuong, Do Van Minh, Hoang Van Cuong, Dang Hong Duy
Study on the effect of rotating shaped charge liner material on penetration depth using the SPH numerical simulation method. | 163 – 170 |
