

TABLE OF CONTENTS

Electronics & Automation

- 01 Pham Duc Thong, D.V. Tarlakovsky, Nguyen Huu Phuong** 3 – 11
Optimization of the encryption and signal processing algorithm of the functional testing device in communication with control modules of the aerial vehicle ground launch system.
- 02 Nguyen Minh Cuong** 12 – 21
Safe reinforcement learning versus classical controllers for voltage regulation and power quality in the IEEE 33-bus distribution system.
- 03 Than Thi Thuong** 22 – 33
Adaptive neural network controller for trajectory tracking of wheel mobile robots with velocity constraints.
- 04 Nguyen Sy Hiep, Luong Quang Hai, Tran Duc Tan, Pham Van Tang, Tran Duc Nghia** 34 – 44
Improving the quality of deep-tissue elastography imaging: A Kelvin–Voigt model-based and multi-point denoising approach.
- 05 Nguyen Duy Thai** 45 – 54
Segmentation and reconstruction of wireless signals under interference using the FoT-UNet neural network.
- 06 Luu Duc Tho, Ha Huy Dung, Luong Van Trinh, Cao Viet Linh, Doan Van Tung, Nguyen Duc Thanh** 55 – 62
Research and design of a waveguide sum-difference comparator for monopulse radar applications.
- 07 Le Thi Minh Chau** 63 – 73
A sensitivity approach for calculating power losses and bus voltages in radial distribution grids.

Chemistry, Biology & Environment

- 08 Ngo Hong Anh Thu, Lai Thi Mai Huong, Nguyen Thanh Long, Vu Thi Bich Ngoc, Vuong Thi Kim Oanh, Nguyen Thi Thuy Khue, Tran Thi Thuy, Tran Thi Xuyen, Nguyen Duy Vuong** 74 – 83
Development of nanocurcumin-incorporated biopolymer films for enhanced stability and pH-responsive monitoring.
- 09 To Phuong Linh, Le Hong Minh, Nguyen Thi Thu Huong, Luong Trung Thien, Nguyen Hong Son, Nguyen Minh Tri, Vu Ngoc Toan** 84 – 91
Optimization of formulation components and evaluation of 2-chloroethyl ethyl sulfide (CEES) removal efficiency of a PVA/Fuller's Earth/surfactant-based skin decontamination gel.
- 10 Cao Phuong Anh, Nguyen Thi Phuong** 92 – 99
Photocatalytic degradation of rhodamine B using Cu₂O prepared via Terminalia catappa leaf-extract route.
- 11 Nguyen Huu Van, Do Thi Thuy** 100 - 108
The influence of graphene oxide functionalized with 3-aminopropyl triethoxysilane on the corrosion protection performance of epoxy coatings.

12	Tran Thi Khanh Linh, Nguyen Thi Huong, Vu Minh Thanh Investigative synthesis and optimization of Ca ²⁺ /Al ³⁺ dual cross-linked alginate hydrogel beads for water vapor adsorption.	109 - 116
13	Nguyen Cong Thang, Ninh Duc Ha, Ha Quoc Bang Synthesis of reduced graphene oxide by electrochemical method for electromagnetic interference shielding applications.	117 – 124
14	Nguyen Thi Anh Huy, Dang Yen Nhi, Do Nguyen Hoang Nga, Le Anh Kien A weighted linear combination-based multi-criteria framework for prioritizing environmental monitoring sites in coastal military areas of the Mekong Delta, Vietnam.	125 – 135
15	Mai Van Phuoc Study on factors affecting the nickel plating process on titanium alloy substrates.	136 – 142
<i>Physics & Materials Science</i>		
16	Tran Thi Nhan Impact of ascorbic acid concentration on the survival rate of saccharomyces cerevisiae under gamma irradiation.	143 - 149
<i>Information Technology & Applied Mathematics</i>		
17	Doan Thi Bich Ngoc, Nguyen Dao Truong Proposing a solution to keep the order of the generating element secret to enhance the security of the digital signature scheme.	150 – 158
<i>Mechanics & Mechanical Engineering</i>		
18	Trinh Phan Anh, Khuat Cao Khai, Dinh Cong Truong Design and numerical aerodynamic analysis of a centrifugal compressor impeller for a 100 kgf-thrust gas turbine engine.	159 – 168
19	Nguyen Truong Thanh, Nguyen Van Hung, Vu Cao Ky The internal ballistics analysis of underwater solid motor with protective nozzle caps.	169 – 176
20	Tran Duc Thang, Le Van Duong, Nguyen Duy Dat, Dao Manh Quyen, Chu Van Dat Experimental study to determine the oscillation of the base vehicle and cable tension during the TMM-3M bridge lowering process.	177 – 184
