

TABLE OF CONTENTS

Electronics & Automation

- 01 Nguyen Hoang Viet, Nguyen Quang Vinh, Nguyen Vu, Nguyen Thu Trang, Nguyen Bich Van** 3 – 10
Integrated guidance and control for UAV path following in Frenet–Serret frame.
- 02 Le Huu Hung, Pham Thanh Long, Nguyen Thi Trang Nhung** 11 – 19
Measuring the global and directed propagation of several quality indicators in the optimal design of parallel robots through the evaluation of Lipschitz and GTI indices.
- 03 Huynh Dac Son Tien, Phan Nhut Tan, Pham Thanh Tung** 20 – 28
An improved sliding mode control combined with backstepping techniques and artificial neural networks for a coupled-tank system.
- 04 Mai The Anh, Dang Thai Son, Le Van Chuong, Le Thai An, Bui Quang Huy, Ngo Tri Nam Cuong** 29 – 37
Improving the performance of convolutional neural networks using a fuzzy logic based pooling method.
- 05 Trinh Anh Minh, Vuong Anh Trung, Nguyen Bich Van, Pham Ngoc Van, Nguyen Quang Vinh** 38 – 46
Determination of kill probability considering warhead characteristics, terminal miss distance, and target vulnerability.
- 06 Pham Tuan Dat, Pham Xuan Nghia** 47 – 55
Proposed early-stopping algorithm for the FPGA implementation of a Min-Sum decoder for NB-LDPC codes.
- 07 Phan Huy Anh, Ngo Van Quan, Bui Thi Thanh Tam, Cao Van Toan** 56 – 63
Robust and lightweight UAV visual localization in GNSS-denied environments using a variational autoencoder.
- 08 Le Thi Minh Chau, Pham Nang Van** 64 – 72
Using a MILP-based model for solving the optimal power flow problem in distribution networks integrated with step-voltage regulators.
- 09 Nguyen Duy Thai, Hoang Van Phuc** 73 – 82
Effective dielectric modeling for antenna lenses using fill-factor analysis and the Nicolson–Ross–Weir method.
- 10 Pham Van May, Lai Quoc Huy, Trinh The Anh** 83 – 91
Efficient solutions for reducing electromagnetic interference in legacy electronic test equipment systems.

Chemistry, Biology & Environment

- 11 Nguyen Thi Ngoan, Pham The Long, Nguyen Minh Viet, Le The Hoai, Tran The Dinh, Dao Xuan Phuc, Cong Tien Dung** 92 - 100
Effect of inorganic filler type and in-situ Silane modification on lap shear strength and thermal aging durability of polyamide-cured epoxy adhesive on aluminum alloy.
- 12 Hoang Van Quyen** 101 - 107
Research on the utilization of fly ash and rice husk silica as fillers for flame-retardant silicone rubber materials.

13	Vu Huong Ly, Chu Manh Nhung, Duong Thanh Hoa, Bui Van Ly Advanced ZnO:Ce@GO nanocomposites for enhanced visible–light photocatalytic degradation of Disperse Red 152.	108 – 115
14	Vuong Bao Thy, Bui Thi Bich Hanh, Hoang Thi Kim Dung, Ton Anh Khoa The incorporation of water-soluble Hydroxypropyl-β-Cyclodextrin-Lycopene inclusion complex in biopolymer chitosan nanoparticles: Physicochemical characteristics and in-vitro release.	116 – 123
15	Khong Manh Hung, Nguyen Duy Anh, Tran Van Hien, Nguyen Manh Hung, Vo Hoang Phuong Fabrication of polypyrrole/nylon composite with high radar transmission loss for electromagnetic interference shielding application.	124 – 132
16	Nguyen Duc Long, Nguyen Van Hung, Pham Van Thuan, Hoang Van Hung Research, design, and fabrication of a gas-generating propellant charge for a three-chamber underwater vehicle simulator launch system.	133 - 140
<i>Physics & Materials Science</i>		
17	Dang Thi Thu Ha, Nguyen Dinh Van, Nguyen Duc Hoa Unsupervised deep learning-based anomaly detection in mixed gases using sensor array.	141 – 148
18	Nguyen Quang Hiep, Dang Van Tang, Pham Hoang Son Image fusion in a man-portable multi-sensor optoelectronic device based on an embedded system on module.	149 – 156
19	Vu Quang Tho, Nguyen To Nu, Nguyen Thi Minh Thuy, Tong Sy Tien Temperature-dependent XAFS parameters of crystalline platinum within a classical anharmonic correlated Einstein approach.	157 – 166
<i>Information Technology & Applied Mathematics</i>		
20	Nguyen Trung Hieu, Le Dinh Anh, Duong Van An, Pham Thi Thanh Thuy, Pham Ngoc Khiem, Tran Quang Truong, Trinh Thi Hoang, Doan Thi Huong Giang A frame-level video annotation tool for dynamic gestures and apply in Vietnamese sign language.	167 – 175
<i>Mechanics & Mechanical Engineering</i>		
21	Lai Dang Giang, Tran Duc Hoan, Le Trong Tan Optimization of process parameters for hydromechanical deep drawing of square conical parts based on Taguchi and ANOVA methods.	176 – 183
22	Tran Duc Hoan, Truong Viet Hoai Statistical evaluation and regression modeling of strength recovery in scarf-repaired composite laminates.	184 – 191
23	Bui Xuan Son, Bui Minh Tuan, Nguyen Van Huong Study on the effects of training round caliber and propellant type on the ballistic characteristics of a dynamic-reaction training device.	192 – 198
